OF MADISON COUNTY IOWA!

THURSDAY, OCTOBER 5, 2017
– The Bridges Tour is Personally Guided! –
ONLY $189

Per Person From:
FREMONT, LINCOLN, NORFOLK, & OMAHA

BRIDGES OF MADISON COUNTY IOWA TOUR INCLUDES:

- Roseman Covered Bridge
  Built in 1863 by Benton Jones, it is 107 feet in length and sits in its original location. Roseman Bridge was renovated in 1992 at a cost of $152,515. In Robert James Waller’s novel, The Bridges of Madison County, and the movie of the same name, Roseman is the bridge Robert Kincaid seeks when he stops at Francesca Johnson’s home for directions.

- Cedar Covered Bridge
  Recently burned by an arsonist on April 15, 2017, Cedar Covered Bridge was the only bridge open to vehicles. Built over Cedar Creek north of Winterset in 1883, it spans 76 feet long. The fire resulted in a total loss, but the plan is to one day rebuild the bridge again to the exact specifications it was built upon. Due to rebuilding efforts and vehicle traffic, we will not be visiting the Cedar Covered Bridge in 2017.

- Imes Covered Bridge
  One of the oldest of the remaining covered bridges, the Imes Bridge was built in 1870 and is 81 feet in length. It was originally located over the Middle River west of Patterson. In 1887 it was moved to a spot over Clanton Creek southwest of Hanley. Imes Bridge was moved again to its present site over a natural ravine just east of St. Charles in 1977. It was renovated in 1997 at a cost of $31,807.

- Holliford Covered Bridge
  Built in 1880 by Benton Jones, it is the longest covered bridge measuring 122 feet. It remains in its original site over the Middle River southeast of Winterset. Holliford was renovated in 1996 at a cost of $225,000. It is also featured in the movie “The Bridges of Madison County”.

- Hogback Covered Bridge
  Built in 1884 by Benton Jones, the Hogback Bridge measures 97 feet and is in its original location in a valley north of Winterset. Hogback Bridge gets its name from the limestone ridge which forms the west end of the valley. It was renovated in 1992 at a cost of $18,610.

- Cutler-Donahoe Bridge
  Built in 1883 by Benton Jones, it is 107 feet in length and sits in its original location. Roseman Bridge was renovated in 1992 at a cost of $152,515. In Robert James Waller’s novel, The Bridges of Madison County, and the movie of the same name, Roseman is the bridge Robert Kincaid seeks when he stops at Francesca Johnson’s home for directions.
